HOW TO USE THIS MANUAL

This manual is designed to provide the customer with a means to identify the parts on his/her tractor when ordering repair parts. The illustrations may or may not represent the actual assemblies; therefore, it is not recommended to use this manual as a guide to assemble or disassemble the tractor. Some hardware and parts are drawn larger in order to more readily identify them.

Each tractor has its own model number.

The model number for your tractor can be found on the fender under the seat.

When ordering parts, always give the following information:

- Product - “Tractor”
- MODEL NUMBER - “**936042 (96046001100)**”
- Part Number
- Part Description

This diagram illustrates the exploded view of a drive-tex_K46_fender_20 assembly. The central component is a long, rectangular metal rail (56) with various mounting points and slots. To the left, a curved metal bracket (70) is shown with a screw (74) for attachment. Below the rail, a complex assembly of pulleys (51, 52), belts (64), and various fasteners (screws, bolts, nuts) is detailed. Key components include a large pulley (51) with a belt (64) running around it, and a smaller pulley (52) with a belt (64) running around it. A spring (161) is also shown. On the right side, a vertical metal plate (80) is shown with screws (125) for mounting. A bracket (226) is also shown. The bottom of the diagram shows a motor assembly (1) with a fan, connected to a drive shaft (2) with various gears (33, 205, 230) and pulleys (51, 52). The entire assembly is shown in an exploded view, with dashed lines indicating the assembly path and alignment of the parts.
