Super Pro 81 chain saws are identified by a model number (600438) followed by a suffix letter (A, B, D or E) stamped on the identification plate attached to the saw. Suffix letters denote variations in parts or assemblies in the manufacture of the saw.

Part numbers listed in this IPL which have a suffix letter or letters following the description, indicate the part is used only on the model(s) identified by the letter or letters.

Part numbers and descriptions without suffix letter or letters apply to all models of the Super Pro 81 chain saw.

Part numbers which have one or more dots (.) preceding their description may be ordered individually but they are also included in the kit or assembly whose description begins directly above the dot(s).

Part numbers which have changed since the previous printing of the IPL covering these saws, are indicated by a dash (-) preceding the new part number.

The policy of McCulloch Corporation is one of continual improvement in design, manufacturing and engineering advancement wherever possible to assure still finer two-cycle power tools. Hence, specifications, equipment, colors, design and manufacturer's suggested list prices are subject to change without notice and McCulloch Corporation reserves the right to make such changes without prior notification or obligation to backfit or supply backfit components for units previously shipped from the factory.

This exploded view diagram illustrates the assembly of a mechanical device, likely a pump or motor. The components are numbered 1 through 43. The main assembly consists of a housing (19) with a central shaft (11) and a pump head (4) mounted on top. The pump head includes a cylinder (6) and a piston (5). A drive shaft (11) is connected to the pump head. A motor (18) is mounted on the side of the housing. A control unit (41) is connected to the motor via a cable. A trigger gun (25) is shown in a separate view, with its trigger (23) and handle (24) components. A detailed view of the trigger gun shows the internal mechanism, including the trigger (23), handle (24), and various internal components (30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 42, 43).

① Used on models with serial number prefix 11-, 12-, 14-.

② Cylinder/Crankcase and Piston Assembly Kits are furnished in matched sets and are identified by a matching letter marking "A", "B" or "C" on both cylinder and piston. Order replacement pistons identified with the letter identification on the cylinder. For piston replacement in an unmarked cylinder, use Piston Assembly, P/N 92519, identified "B".

③ Used on models with serial number prefix 11-.
